CHAMPION TEXTURE

This eco-friendly texture coating is made from BASF emulsion from Germany and high-hardness, high-durability quartz sand. It features super expansion and thixotropy, providing excellent workability and saving time and effort. It has a super slow drying time, allowing for seamless and scar-free large wall construction by ordinary painters.

With an extremely low VOC content, it surpasses the environmental standards of traditional texture coatings.

This series includes:

· Sand stone · Crystal Stone · Maya Stone · Mocha Stone
· Lime Stone · Castle Stone · Rock stone

There are a total of 7 products, which are further classified into over 20 models based on the sand type.

The process is simple, and the patterns are unique.

It's the champion of walls and the champion of craftsmanship.
