Macri Touch

OURSTUCCO's Marco Decorative Paint, sold in China, maintains the same high quality as its products sold in the United States. The paint's unique self-dissolving properties during application allow for vibrant and natural color transitions on the wall surface. Furthermore, the Marco Decorative Paint (Premium) series has extremely low VOC content, exceeding the environmental standards of most traditional paints, and boasts an exceptionally long lifespan comparable to that of the building itself. It is highly fire-resistant, moisture-resistant, and mildew-resistant, with excellent color compatibility, vibrant colors, and long-lasting color retention. Simple application yields unique textures and color transitions, making it widely used in French-style interior design and for decorating hotels, resorts, and high-end apartments. Product packaging: Standard packaging in 1-liter/1-gallon or 5-liter/5-gallon US gallon plastic pails. Product types: 1) White Marco Paint (White Premium Color Series) 2) Colored Marco Paint. Instructions for use: When opening the pail to mix colors, please stir gently with a wooden stick or by hand. After use, close the lid tightly. (Do not use power tools to stir the premium color paint.)

Macri Touch

Ourstucco Fauxfinish Paint® Macri Touch is a tintable, water-based acrylic paint. The range is available in a tinted primer, artpaint midcoat and paint topcoat. Applied in a sequence of tinted primer, midcoat and paint topcoat, it produces a unique porcelain paint effect, giving the finished surface a different metallic paint and coloured finish. While traditional paint paints are applied by spraying, OURSTUCCO Macri Touch products can be applied with a roller to produce an even paint effect. Ideal for furniture, feature walls and light-filled ceilings and recesses.

Application

Stir well before use. Use at temperatures between 50° F and 90° F. Product may be applied with roller or spray equipment. After priming with the tinted primer, roll on the clear midcoat, and the crackle topcoat may be used as is or tinted to other colors. It may be thinned up to 30% with water if desired.

Tinting

Can be tinted with water-based or universal colorants (CCA) up to 10% by volume. Use of high quality pigments maintains maximum color reproduction. OURSTUCCO offers 2000 specific color formulations to U.S. retailers made with our 3 basecoats and CCA colorants. (See dealer for details).

Note: Ourstucco strongly recommends that specifiers require applicators to prepare samples in accordance with PDCA P5-94, "Benchmark Sample Procedures for Paint and Other Decorative Coating Systems."

Packaging: lamb paint are available in 3.78 liter and 10 liter product packs and Ourstucco color series are available in 0.15 liter experience packs. Stability: Approximately 3 years. Differences in monitor calibration can affect the on-screen appearance of our actual paint and stain colors. Your local Ourstucco paint and stain retailer can match and/or order the exact color you need using the Ourstucco paint or stain color name or number.
