VENETIAN's application in the lamp pool, the jade effect and the crystal lamp complement each other, and the gray-blue European retro style highlights the nobility.

Venetian Stucco

Product Introduction:

Venetian,(American quality, world-leading) Made from natural white jade powder sourced from Mount Olympus in Greece, this environmentally friendly wall material boasts a luster and texture comparable to jade, boasts extremely low VOC content, surpassing the environmental ratings of traditional coatings. It is resistant to electromagnetic fields, radiation, mildew, moisture, and fire. Its vibrant colors are durable and fade-resistant. The minimalist process allows for a single application, finishing and finishing, resulting in a unique, naturally interlaced stone pattern.

Product Components: The main paint ingredients are water, additives, white jade powder, fine calcium carbonate, and acrylic resin.

Product Features: Ourstucco Venetian Plaster series products offer excellent dyeing, excellent color matching, and stable color. With simple application and spatula finishing, you can create wall effects resembling marble mirrors or jade polishes. Alternatively, you can create a variety of mottled patterns with a jade-like luster by varying the process.

Product Packaging: Standard packaging in US gallon plastic drums (5 kg/gallon or 15 kg/10 liters).

Gloss: Venetian Plaster products achieve a brilliant, jade-like sheen after proper application.

Care: No topcoat or waxing is required. After 21 days, the paint film forms, becoming increasingly stain- and scratch-resistant. For outdoor applications, custom exterior panels are available.

Instructions: Use immediately after opening the drum. Keep the lid closed until fully used.

Storage: Venetian Plaster products have a shelf life of 5 years when unopened.

Venetian Stucco:

Ourstucco Fauxfinish Paint® Venetian Stucco: is a tintable, water-based acrylic paint. The range is available in a tinted primer, artpaint midcoat and paint topcoat. Applied in a sequence of tinted primer, midcoat and paint topcoat, it produces a unique porcelain paint effect, giving the finished surface a different metallic paint and coloured finish. While traditional paint paints are applied by spraying, OURSTUCCO Venetian Stucco: products can be applied with a roller to produce an even paint effect. Ideal for furniture, feature walls and light-filled ceilings and recesses.

Application

Stir well before use. Use at temperatures between 50° F and 90° F. Product may be applied with roller or spray equipment. After priming with the tinted primer, roll on the clear midcoat, and the crackle topcoat may be used as is or tinted to other colors. It may be thinned up to 30% with water if desired.

Tinting

Can be tinted with water-based or universal colorants (CCA) up to 10% by volume. Use of high quality pigments maintains maximum color reproduction. OURSTUCCO offers 2000 specific color formulations to U.S. retailers made with our 3 basecoats and CCA colorants. (See dealer for details).

Note: Ourstucco strongly recommends that specifiers require applicators to prepare samples in accordance with PDCA P5-94, "Benchmark Sample Procedures for Paint and Other Decorative Coating Systems."

Packaging: lamb paint are available in 3.78 liter and 10 liter product packs and Ourstucco color series are available in 0.15 liter experience packs. Stability: Approximately 3 years. Differences in monitor calibration can affect the on-screen appearance of our actual paint and stain colors. Your local Ourstucco paint and stain retailer can match and/or order the exact color you need using the Ourstucco paint or stain color name or number.
