Moon Stone

Made with pearlescent powder from Merck (Germany) or equivalent, BASF emulsion, and polished quartz (same quality as in the US), this spray-applied or scraped-on metal-like stone-like material boasts extremely low VOC content, surpassing the environmental performance of traditional water-based paints. It offers excellent moisture and mildew resistance, weather resistance, and long-lasting durability, with high saturation and a pure, natural color. With simple brushing, scraping, or spraying, you can create a metallic, shimmering texture and effect, giving traditional, plain walls the warmth of leather and the luxurious feel of metal. In medium lighting conditions, it easily creates an elegant, luxurious atmosphere.

Product Ingredients: The main paint ingredients are water, additives, pearlescent powder, and acrylic resin.

Product Features: Ourstucco Moonstone Series products offer strong adhesion, scratch resistance, metallic shimmer, a unique leather-like smoothness, and simple application, resulting in a classic, luxurious pearlescent effect.

Product Packaging: Standard packaging in US gallon plastic drums (6 kg/gallon).

Application Instructions: Alkali-resistant primer must be rolled on. Once dry, apply a coat of the same-color primer with a roller. Then, spray or roll on one or two coats of Moonstone. You can also use an angled brush, multipurpose brush, or stainless steel spatula to sweep or scrape the paint.

Usage Instructions: Open the container and use immediately. Keep the lid closed until the product is fully used.

Storage Instructions: Suede products have a shelf life of three years when unopened.

Moon Stone:

Ourstucco Fauxfinish Paint® Moon Stone is a tintable, water-based acrylic paint. The range is available in a tinted primer, artpaint midcoat and paint topcoat. Applied in a sequence of tinted primer, midcoat and paint topcoat, it produces a unique porcelain paint effect, giving the finished surface a different metallic paint and coloured finish. While traditional paint paints are applied by spraying, OURSTUCCO Moon Stone: products can be applied with a roller to produce an even paint effect. Ideal for furniture, feature walls and light-filled ceilings and recesses.

Application

Stir well before use. Use at temperatures between 50° F and 90° F. Product may be applied with roller or spray equipment. After priming with the tinted primer, roll on the clear midcoat, and the crackle topcoat may be used as is or tinted to other colors. It may be thinned up to 30% with water if desired.

Tinting

Can be tinted with water-based or universal colorants (CCA) up to 10% by volume. Use of high quality pigments maintains maximum color reproduction. OURSTUCCO offers 2000 specific color formulations to U.S. retailers made with our 3 basecoats and CCA colorants. (See dealer for details).

Note:Ourstucco strongly recommends that specifiers require applicators to prepare samples in accordance with PDCA P5-94, "Benchmark Sample Procedures for Paint and Other Decorative Coating Systems."

Packaging: lamb paint are available in 3.78 liter and 10 liter product packs and Ourstucco color series are available in 0.15 liter experience packs. Stability: Approximately 3 years. Differences in monitor calibration can affect the on-screen appearance of our actual paint and stain colors. Your local Ourstucco paint and stain retailer can match and/or order the exact color you need using the Ourstucco paint or stain color name or number.
